

Docs - Chunk Classification - Labeling Guide

Context

Up to now, the task has been to label the boxes in the documents as well as the ordering. This data has been successfully used to train a model. However, in line with the labeling, this model only outputs the boxes in order.

To support some customer use cases, we need to also need a model that can *classify* each box into one of five categories: `text`, `marginalia`, `table`, `form`, or `figure`. The classes will be defined below. This task will be to provide labeled data to train that model.

Task Structure

In the project

<https://app.landing.ai/app/33557531025413/pr/149333567801348/data/databrowser?filters=%257B%25257D>, you will see images that look like this:

DocuSign Envelope ID: 4AA11ECD-CA90-4292-8BC1-021D7948EEE8

agents, and employees, and suitably configured computer products (collectively, "Cooperation") are essential to the performance of any Services as set forth in this SOW. Company will not be responsible for any deficiency in performing Services if such deficiency results from Company's failure to provide reasonable Cooperation.

Customer acknowledges that Company's ability to perform the Services and any related estimate depends upon Customer's fulfillment of the following obligations and the following "Project Assumptions":

- (a) The Services will be performed at remote locations.
- (b) The Company will at its sole discretion determine the staffing assignment of specific tasks described in this SOW.

Customer Obligations (as applicable):

- (a) Maintain the properly configured hardware/operating system platform to support the Services.
- (b) Obtain licenses under separate contract for any necessary software and hardware programs before the commencement of Services. Customer agrees to provide Company with proof of licenses upon request.
- (c) Maintain annual technical support for the applicable software and hardware under separate contract throughout the Term of the Services.
- (d) Provide the Company with full access to relevant functional, technical and business resources with adequate skills and knowledge to support the performance of Services.
- (e) Provide, for all Company resources performing Services at the Customer's site, a safe and healthful workspace (e.g., a workspace that is free from recognized hazards that are causing, or likely to cause, death or serious physical harm, a workspace that has proper ventilation, sound levels acceptable for resources performing Services in the workspace, and ergonomically correct work stations, etc.).
- (f) Provide any notices, and obtain any consents, required for the Company to perform Services.
- (g) Limit the Company's access to any production environment or shared development environments to the extent necessary for the Company to perform Services.
- (h) As required by U.S. Department of Labor regulations (20 CFR 655.734), the Customer will allow the Company to post a Notice regarding any Company H-1B employee(s) to the work site prior to the employee's arrival on site.
- (i) Provide 24-hour remote access to all environments associated with the Services.
- (j) Provide database, system, and network administration necessary to support the performance of Services.
- (k) Provide the Company with reasonable access to environments (hosted or otherwise), systems, etc. to support the performance of Services.
- (l) In order for the Company to perform Services under this exhibit, the Customer will provide virtual private network ("VPN") access to the Customer's systems through a network connection the Customer creates between the Company and the Customer's systems.
- (m) Each deliverable will be considered accepted (a) when Buyer confirms acceptance or (b) seven (7) days after delivery, if the Buyer has not first provided Supplier with a written notice of rejection.

4. Rates, Fees and Expenses:

Total Fixed Fee: The Customer agrees to pay the Company a Total Fixed Fee of U.S. dollars **SIXTY-FIVE THOUSAND DOLLARS (\$65,000)** for the Services described in this SOW. This price is for one-time service only. This Total Fixed Fee does not include expenses or taxes.

Milestone Fees: Upon completion of a milestone, the corresponding milestone Fee for such milestone

2

This is a visualization of a single box from the document page. The rest of the document is darkened but is still there in case you need context around the box. Your job is to classify the box according to its type. For example, in this case, the classification would be **text**.

If there are some tricky or borderline cases, reach out on the Slack channel, and you can set the class as **unsure** so you don't get blocked.

Also, please *do not* edit the metadata, because later on we will use that to link the classification labels to the original images in the previous labeling project.

Hence

$$\int d\omega' \sin \gamma P_2(\cos \theta') = 2\pi \int_0^{2\pi} \sin \theta' d\theta' \times \sum_{n=0}^{\infty} c_{2n} P_{2n}(\cos \theta) P_{2n}(\cos \theta') P_2(\cos \theta) \quad (\text{A13})$$

where the sum involving associated Legendre functions of the first kind vanish in the integration over ϕ' . Now we introduce the notation

$$\langle P_{2n} \rangle_f = \int_0^\pi d\theta' f(\theta') P_{2n}(\cos \theta'). \quad (\text{A14})$$

So

$$\int d\omega' \sin \gamma P_2(\cos \theta') = 2\pi \sum_{n=0}^{\infty} c_{2n} P_{2n}(\cos \theta) \langle P_{2n} \rangle_f \quad (\text{A15})$$

with $f = P_2(\cos \theta')$. From the orthogonality conditions of Legendre polynomials [79] we have that $\langle P_{2n} \rangle_f = 2/(2m+1)\delta_{mn}$ where δ_{mn} is the Kronecker- δ symbol. Here, $m = 2$ and, given that $c_2 = -5\pi/32$, we have

$$\int d\omega' \sin \gamma P_2(\cos \theta') = 2\pi c_2 P_2(\cos \theta) \cdot \frac{2}{5} = -\frac{\pi^2}{2} P_2(\cos \theta). \quad (\text{A16})$$

Hence

$$\begin{aligned} \mathcal{I}_4 &= \int d\omega P_2(\cos \theta) \left[-\frac{\pi^2}{2} P_2(\cos \theta) \right] \\ &= -2\pi^3 \int_0^{\frac{\pi}{2}} d\theta \sin \theta |P_2(\cos \theta)|^2 = -2\pi^3 \cdot \frac{1}{5} = -\frac{\pi^3}{10} \end{aligned} \quad (\text{A17})$$

as required. The last integral to consider is

$$\begin{aligned} \mathcal{I}_5 &= \int d\omega \int d\omega' \int d\omega'' |\omega \cdot (\omega' \times \omega'')| [P_2(\cos \theta) P_2(\cos \theta')] \\ &\quad + P_2(\cos \theta) P_2(\cos \theta'') + P_2(\cos \theta') P_2(\cos \theta''). \end{aligned} \quad (\text{A18})$$

We consider integrating the first term of (A18), namely

$$\bar{\mathcal{I}}_5 = \int d\omega \int d\omega' \int d\omega'' |\omega \cdot (\omega' \times \omega'')| P_2(\cos \theta) P_2(\cos \theta'). \quad (\text{A19})$$

We let $\omega'' = e_z$ in the integrand so that

$$\bar{\mathcal{I}}_5 = \int d\omega'' \int d\omega \int d\omega' |\sin \gamma(\hat{n} \cdot e_z)| P_2(\cos \theta) P_2(\cos \theta'), \quad (\text{A20})$$

CREATE INDEX Statement

For unique indexes that include one or more `NULL` columns of an `NDB` table, the hash index can be used only to look up literal values, which means that `IS (NOT) NULL` conditions require a full scan of the table. One workaround is to make sure that a unique index being ordered on more `NULL` columns on such a table is always created in such a way that it includes the ordered index; that is, avoid employing `USING HASH` when creating the index.

If you specify an index type that is not valid for a given storage engine, but another index type is available that the engine can use without affecting query results, the engine uses the available type. The parser recognizes `BTREE` as a type name, but currently this cannot be specified for any storage engine.

 **Note**

Use of the `index_type` option before the `ON tbl_name` clause is deprecated; expect support for use of the option in this position to be removed in a future MySQL release. If an `index_type` option is given in both the earlier and later positions, the final option applies.

`TYPE type_name` is recognized as a synonym for `USING type_name`. However, `USING` is the preferred form.

The following tables show index characteristics for the storage engines that support the `index_type` option.

Table 13.2 InnoDB Storage Engine Index Characteristics

Index Class	Index Type	Stores NULL VALUES	Permits Multiple NULL Values	IS NULL Scan Type	IS NOT NULL Scan Type
Primary key	BTREE	No	No	N/A	N/A
Unique	BTREE	Yes	Yes	Index	Index
Key	BTREE	Yes	Yes	Index	Index
FULLTEXT	N/A	Yes	Yes	Table	Table
SPATIAL	N/A	No	No	N/A	N/A

Table 13.3 MyISAM Storage Engine Index Characteristics

Index Class	Index Type	Stores NULL VALUES	Permits Multiple NULL Values	IS NULL Scan Type	IS NOT NULL Scan Type
Primary key	BTREE	No	No	N/A	N/A
Unique	BTREE	Yes	Yes	Index	Index
Key	BTREE	Yes	Yes	Index	Index
FULLTEXT	N/A	Yes	Yes	Table	Table

2526

Marginalia

Small text that exists in the margins, such as:

1. Page headers
2. Page numbers
3. Page footers
4. Side text

Note that since they are not text, barcodes and QR codes are never marginalia even if they occur in the margins of the page. They should be **figure**.

Little High School (Dual Enrollment at Mission Community College)

June 2026

Current GPA: 4.0/4.0

June 2022

GPA: 4.44/4.0

COURSEWORK

Courses: Object-Oriented Programming, Data Structures & Algorithms, Embedded Systems, Discrete Math, Linear Algebra, Calculus, Physics, Probability & Statistics
Awards: Dean's Honor List (3x), AP Scholar with Distinction (2x), World Language History Award (Spanish)

SKILLS

Languages: C/C++, Python, Java, JavaScript/TypeScript, HTML/CSS, L^AT_EX
Tools: Git/GitHub, Unix Shell, Webpack, VS Code, IntelliJ CLion/PyCharm/IDEA, Atom

PROJECTS

Carbon | Flutter, Dart, Supabase, APIs (INRIX, Google Maps), Git, Unix Shell, VS Code

Nov. 2023

- Team project for the INRIX Hack 2023 Hackathon, earned Honorable Mention
- Developed a social media mobile app to gamify eco-friendliness using the INRIX API
- Learned how to use Flutter in conjunction with backend databases and APIs

ChatBuzz | TypeScript, HTML/CSS, Webpack, API (Twitch), Git, Unix Shell, VS Code

May 2023 – Present

- Developed a full-stack web application for Twitch streamers to display repeated chat messages on OBS
- Experimented with Twitch API's OAuth Access Tokens to get chat data from the given channel
- Collaborated with streamers to get feedback and suggested features
- Solved problems relating to asynchronous tasks

FoodDropper | Java, Maven, API (Spigot), Git, IntelliJ IDEA

Aug. 2022

- Developed a Minecraft server plugin to limit players to one way of replenishing their hunger bar
- Used persistent data containers to save and load data, ensuring that it persists across plugin resets
- Optimized UX e.g. sound design, food drop timing, supplied saturation level, and addressed potential workarounds

EXPERIENCE

Competitive Programming Club | Member

Sept. 2023 – Present

Involved in the club centered around Competitive Programming

Apex Tutoring | Tutor

2019 – Present

Routinely tutor K–12 students in math, coding, etc.

Luigi Team Charity | Volunteer, Manager

2018 – Present

Earned an award for philanthropic hours spent, still giving away 100 stocked backpacks a year

HOBBIES

Playing the Drums

2013 – 2019

Played the drums in symphonic, jazz, and marching bands

3rd Place Time Keeping Challenge Championship (Time Keeping Association)

Feb. 2022 – May 2022

Won \$1500 nationally competing against high school students in counting seconds and minutes

MANAGEMENT'S DISCUSSION & ANALYSIS

For the period ended June 30, 2010

Form51-102F

The following management discussion and analysis of Monument Mining Limited ("Monument" or the "Company") as of September 27, 2010 should be read in conjunction with the audited consolidated financial statements for the year ended June 30, 2010 and related notes, which have been prepared in accordance with generally accepted accounting principles in Canada (Canadian GAAP).

All amounts following are expressed in Canadian dollars unless otherwise indicated. Additional information relating to the Company's activities may be found on the Company's web page at www.monumentmining.com and at www.sedar.com.

1.2 Overview

Monument, listed on TSX-V ("MMY"), FSE ("D7Q1"), is a resource company engaged in exploration and development of gold mineral properties. Its primary business objective is to advance its projects from exploration and development to production, and to increase its gold mineral assets through acquisition of prospective exploration land or gold projects at advanced development stage. The Company's Head Office is located in Vancouver, BC, Canada. It operates through its wholly owned subsidiaries in Pahang State, Malaysia.

The Company's current primary gold properties - Selinsing Gold Project ("Selinsing") and Buffalo Reef Prospect ("Buffalo Reef") - are located in the Central Gold Belt of Western Malaysia. Both properties hold gold resources with opportunity for extension and lie in the same district as the operating Penjor Mine and Raub Gold Mine, which each host more than one million ounces of gold resources.

Fiscal 2010 started with commencement of open pit mining in July 2009 at Selinsing property, followed by the first gold pour from the gravity circuit in October 2009. The Phase I gravity circuit was fully commissioned and was placed into pre-commercial production in January 2010, from which \$16 million cash was generated during the year to fund the Phase II CIL (Carbon in Leach) circuit construction and the first open pit mine operations. The commissioning of the CIL plant was completed subsequent to the year ended June 30, 2010. Aggregate costs of construction and mine site development as at June 30, 2010 were \$17.4 million. In September, 2010, the Company announced commercial production and has become a junior gold producer.

A drill program confirming gold resources at Buffalo Reef was completed in fiscal 2009, except diamond drilling, which together with further exploration programs has been put on hold for additional financing during fiscal 2010. Subsequent to the year ended June 30, 2010, the Company closed a \$13 million financing through issuance of convertible notes and a gold forward sale, and immediately completed 32,000 acres prospective exploration land acquisition (Famehub). As a result, the Company has entered a new stage of growth, to implement strategic regional exploration programs targeting to increase the measured and indicated resources at both Selinsing and Buffalo Reef properties as well as the Famehub property. On September 22, 2010, the Company announced a \$3.4 million exploration program on its Malaysian properties aiming at increasing the gold resource assets and building up its development pipeline in Malaysia.

High Lights for Fiscal 2010

1. On July 1, 2009, mining activities commenced at the first open pit of Selinsing property. The Company awarded the mining contract to Minitech Construction Sdn Bhd. Mining equipment was mobilized to the mine site, and a mining contractor's workshop and camp site were established. Excavation started in the first week of July by removing slide material from an old open pit;
2. In October 2009, the gravity circuit was commissioned and was in pre-commercial production with the first gold pour; mill throughput achieved 32,800 tonnes per month in December 2009;
3. On December 21, 2009, the Company announced it had signed Term Sheets to raise \$12 million comprised of a \$7 million convertible note and \$5 million forward gold sales to fund its continuing exploration programs, the acquisition of exploration prospective land and the extension of phase III gold treatment plant;
4. In the second quarter of fiscal 2010, the stage 1 tailings storage facilities were completed under monsoon season conditions, providing storage capacity for 16 months' tailings discharged from plant production with design allowing for expansion in lifts over the project expected life of more than 5 years;
5. In the third quarter of fiscal 2010, the manufacturing license for the establishment of the Carbon in Leach processing plant at the Selinsing Gold Project was issued by the Malaysian federal government;

ARTICLES OF INCORPORATION

OF

THOMPSON ESTATES HOMEOWNERS ASSOCIATION

**ENDORSED
FILED**
In the office of the Secretary of State
of the State of California

AUG 11 1989

MARCH FONG EU, Secretary of State

ARTICLE I
NAME

The name of the corporation (hereinafter called the "Association") is THOMPSON ESTATES HOMEOWNERS ASSOCIATION.

ARTICLE II
AGENT FOR SERVICE OF PROCESS

The name of the Association's initial agent for service of process is: Robert R. Krandel. The address of its initial agent is: 300 Orchard City Drive, Suite 134, Campbell, CA 95008.

ARTICLE III
PURPOSES OF THE ASSOCIATION

This corporation is a nonprofit mutual benefit corporation organized under the Nonprofit Mutual Benefit Corporation Law.

The purpose of this corporation is to engage in any lawful act or activity for which a corporation may be organized under the Nonprofit Mutual Benefit Corporation Law of the State of California.

This Association does not contemplate pecuniary gain or profit to the members thereof, and the specific primary purposes for which it is formed are to provide for management, administration, maintenance, preservation and architectural control of the residential lots and common area within a certain tract of property situated in the City of San Jose, County of Santa Clara, California, and to promote the health, safety and welfare of all the residents within the property and any additions thereto as may hereafter be brought within the jurisdiction of this Association for this purpose, all according to that certain Declaration of Covenants, Conditions and Restrictions, hereinafter called the "Declaration" recorded or to be recorded with respect to said property in the Office of the Recorder of Santa Clara County.

Notwithstanding any of the above statements of purposes and powers, this corporation shall not, except to an insubstantial degree, engage in any activities or exercise any powers that are not in furtherance of the specific purpose of this corporation.

ARTICLE IV
DISSOLUTION

This Association is intended to qualify as a homeowners' association under the applicable provisions of the Internal Revenue Code, and of the Revenue and Taxation Code of California. No part of the net earnings of this organization shall inure to the benefit of any private individual, except as expressly provided in those sections with respect to the acquisition, construction, or provision for management, maintenance, and care of the Association property, and other than by a rebate of excess membership dues, fees, or assessments. So long as there is any lot, or parcel for which the Association is obligated to

THE SLEREXE COMPANY LIMITED

SAPORS LANE - BOOLE - DORSET - BH25 8ER
TELEPHONE BOOLE (945 13) 51617 - TELEX 123456

Our Ref. 350/PJC/EAC

18th January, 1972.

Dr. P.N. Cundall,
Mining Surveys Ltd.,
Holroyd Road,
Reading,
Berks.

Dear Pete,

Permit me to introduce you to the facility of facsimile transmission.

In facsimile a photocell is caused to perform a raster scan over the subject copy. The variations of print density on the document cause the photocell to generate an analogous electrical video signal. This signal is used to modulate a carrier, which is transmitted to a remote destination over a radio or cable communications link.

At the remote terminal, demodulation reconstructs the video signal, which is used to modulate the density of print produced by a printing device. This device is scanning in a raster scan synchronised with that at the transmitting terminal. As a result, a facsimile copy of the subject document is produced.

Probably you have uses for this facility in your organisation.

Yours sincerely,

Phil.

**COVID-19 VACCINATION
REQUEST FOR MEDICAL EXEMPTION FORM**

Name: _____ Date of Birth: _____
 Email: _____ Phone: _____
 Department: _____ Supervisor: _____
 Provider: _____ Provider Phone: _____

University of Missouri requires a COVID-19 vaccination in certain units or departments of the university, unless approved for an exemption. Individuals with an approved exemption will have to comply with requirements specified in related policies and/or guidelines, which may include masking and other measures. If an approved exemption contains an expiration date, you will be expected to complete the vaccine requirement at that time. If the condition continues, or a new vaccination contraindication occurs, a new exemption request with updated documentation is required.

The University bases its immunization practices/policies on the Centers for Disease Control and Prevention (CDC), federal mandates, and other local health authority guidance.

There are, however, persons who should not receive the COVID-19 vaccine or live virus vaccines and will need an evaluation for a medical exemption by their medical provider. Please check the appropriate reason below that best describes your situation:

Contraindication to COVID-19 vaccine or its components.
 Biologic or chemotherapy medications or medical treatments which can put a person at risk for immunosuppression.
 History of Guillain-Barre Syndrome (GBS).
 Other (describe): _____

Please have your licensed health care provider complete the section below and attach supporting medical records or documentation. Information will be evaluated on a case-by-case basis and staff will be informed of the decision by email.

I certify that	has contraindications to COVID-19 vaccine or its components and I support the request for a medical exemption from required COVID-19 vaccination.
The medical condition is:	<input checked="" type="checkbox"/> Temporary and is expected to end or expire on or about _____ <input type="checkbox"/> Long-term
Provider signature (signature stamp not accepted):	Date:
Provider License #:	

I am requesting a medical exemption to the requirement for COVID-19 vaccination or a delay in vaccination because of a temporary condition or medical circumstance. By signing or typing my name above, I acknowledge that I am submitting this form and attached documentation in support of my request and verify the information is complete and accurate. I understand that any intentional misrepresentation contained in this request may result in disciplinary action. While all exemption requests will be carefully reviewed, approval is not guaranteed.

Employee Signature: _____ Date: _____

Submit the signed completed form through myHR to request a medical exemption. Any questions? Contact your Human Resources Office.

Note: HOSPT Members and/or employees of MU Health are required to submit proof of COVID-19 vaccination in an alternative manner. Employees may email MU Health Care AskHR for additional information at askhr@health.missouri.edu.

UM 19VAC 12-7-2021

The below is a form and not a table, because it has a label associated with each field, compared to a table which typically has a label on the column or row.

DEPARTMENT OF HOMELAND SECURITY
U.S. Customs and Border Protection

OMB CONTROL NUMBER 1651-0014
EXPIRATION DATE: 02/28/2026

DECLARATION FOR FREE ENTRY OF UNACCOMPANIED ARTICLES

19 CFR 148.6, 148.52, 148.53, 148.77

Paperwork Reduction Act Statement: An agency may not conduct or sponsor an information collection and a person is not required to respond to this information unless it displays a current valid OMB control number and an expiration date. The control number for this collection is 1651-0014. This estimated average time to complete this application is 45 minutes. The obligation to respond to this information collection is mandatory to obtain benefits. If you have any comments regarding the burden estimate you can write to CBP PRA Officer, U.S. Customs and Border Protection, Office of Regulations and Rulings, 10th floor, 90K Street NE, Washington DC 20002.

PART I – TO BE COMPLETED BY ALL PERSONS SEEKING FREE ENTRY OF ARTICLES (Please consult with the CBP official for additional information or assistance. REMEMBER—All of your statements are subject to verification. False declarations or failure to declare articles could result in penalties.)

IMPORTER'S NAME (Last, first and middle initial)	IMPORTER'S DATE OF BIRTH	IMPORTER'S DATE OF ARRIVAL

Kundencenter in Wiesbaden zieht um

Im September bezog die IKK Südwest die neuen Räumlichkeiten ihres Kundencenters in Wiesbaden. Mit seiner Lage im Herzen der hessischen Landeshauptstadt, in der Nähe des Luisenplatzes, ist es für unsere Kunden ganz einfach zu erreichen. Zudem finden Unternehmen mit der Gesundheitsmanufaktur einen Anlaufpunkt, wenn es um Betriebliches Gesundheitsmanagement geht.

Zur offiziellen Eröffnungsfeier waren Gäste aus Politik, Wirtschaft und dem Gesundheitswesen geladen. Besonders Highlight waren die Basketballer der Rhine River Rhinos, die im Rahmen der europäischen Sportwoche mit ihrem Maskottchen Rainer Rhino vorbeischauten. Zusammen mit IKK-Sportskanone Fred nutzte er die Gelegenheit, ein paar Körbe zu werfen.

Unternehmerfrühstück in Kaiserslautern

Ein offener Austausch zwischen Politik, Wirtschaft und Vertretern der IKK Südwest – das gab es im Oktober beim Unternehmerfrühstück, das in den Räumlichkeiten des neuen Kundencenters in Kaiserslautern veranstaltet wurde. Dr. Volker Wissing, Wirtschaftsminister und stellvertretender Ministerpräsident von Rheinland-Pfalz, suchte als Vertreter der rheinland-pfälzischen Regierung das Gespräch mit 45 Arbeitgebern aus der Region. Unterstützung fand er dabei durch IKK-Südwest-Vorstand Roland Enghausen und Rainer Lunk, Verwaltungsratsvorsitzender der Arbeitgeberseite.

Betriebliches Gesundheitsmanagement in Trier fördern

Zusammen mit der Kreishandwerkerschaft Trier-Saarburg lobte die IKK Südwest einen Gesundheitspreis für Betriebliches Gesundheitsmanagement aus. Der Preis wurde im Rahmen des Jahresempfangs der IHK Trier an Firmen verliehen, die sich besonders für die Gesundheit ihrer Mitarbeiter engagieren. Kreishandwerksmeister Gerd Bernmüller, Staatssekretärin im Landwirtschaftsministerium Daniela Schnitt und IKK-Südwest-Vorstand Prof. Dr. Jörg Loth überreichten die Preise an die sieben ausgezeichneten Unternehmen.

1. Company Name	2. Contact Name	
3. Phone Number (include area code)	4. Cellphone Number	5. Fax Number
6. Email Address		
7. Rate category/categories to be used (i.e. RDU and RBMC):		
8. Proposed USPS retrieval locations and the individual contact information for your company's processing facilities the company contact or agent at each location:		
9. Projected volume per quarter for each RDU and/or RBMC:		
10. Proposed label and instructions for the consumer:		
11. Description of the electronic returns manifesting system to be used to document returns, by locations and rate eligibility:		
12. Current Parcel Select® parcel profile:		
13. Dates label distribution will begin:		
14. Third-party vendors only, provide a list of clients:		

PS Form 3761, October 2007

Figure 4: assoc_count frequency in our production environment. 1% of returned counts were $\geq 512K$.

Figure 5: The number of edges returned by assoc_range and assoc_time_range queries. 64% of the non-empty results had 1 edge, 13% of which had a limit of 1.

cations returned for range and time-range queries, and the subset that hit the limit for returned associations. Most range and time range queries had large client-supplied limits: 12% of the queries had limit = 1, but 95% of the non-empty queries had limit ≥ 1000 . Less than 1% of the return values for queries with a limit ≥ 1 actually reached the limit.

Although queries for non-existent associations are common, this is not the case for objects. A valid id is only produced during object creation, so obj.get can only return an empty result if the object has been removed or if the object's creation has not yet been replicated to the current region. Neither of these cases occurred in our trace; every object read was successful. This doesn't mean that objects were never deleted – it just means that there was never an attempt to read a deleted object.

Figure 6 shows the distribution of the data sizes for TAO queries. Most associations returned by clients contained no data. Our implementation allows objects to store 1MB of data and associations to store 64K of data (although a custom table must be configured for associations that store more than 255 bytes of data). The actual size of most objects and associations is much

Figure 6: The size of the data stored in associations and objects that were returned by the TAO API. Associations typically store much less data than objects. The average association data size was 97.8 bytes for the 60.5% of returned associations that had some data. The average object data size was 673 bytes.

Figure 7: Throughput of an individual follower in our production environment. Cache misses and writes are more expensive than cache hits, so the peak query rate rises with hit rate. Writes are included in this graph as non-hit requests.

smaller. However, large values are frequent enough that the system must deal with them efficiently.

8 Performance

Running a single TAO deployment for all of Facebook allows us to benefit from economies of scale, and makes it easy for new products to integrate with existing portions of the social graph. In this section, we report on the performance of TAO under a real workload.

Availability: Over a period of 90 days, the fraction of TAO queries that failed due to a TAO web server error was 4.9×10^{-6} . Care must be taken when interpreting this number, since the failure of one TAO query might prevent the client from issuing another query with a dynamic data dependence on the first. TAO's failures may also be correlated with those of other dependent systems.

This is a stamp, which should be labeled as figure

Michael Brown

Senior Social Media Strategist
who has created compelling
brand narratives for companies
like Sony and Tesla

The image displays a variety of official Israeli documents and identification cards, all featuring the traditional Star of David emblem. The documents include:

- A birth certificate (Ketuba) for a child named Liora Barzel, born on August 31, 2018, at the Hadassah Ein Kerem Hospital.
- A marriage certificate (Tikvah) for a couple named Omer and Orna Ofir.
- An Israeli National ID card (Hukma) for a person named Ofer Barzel, born on May 3, 2015.
- A driver's license (Hukma) for a person named Ofer Barzel, issued on June 22, 2022.
- A residence permit (Hukma) for a person named Ofer Barzel, issued on May 3, 2015.
- A residence permit (Hukma) for a person named Ofer Barzel, issued on June 22, 2022.
- A residence permit (Hukma) for a person named Ofer Barzel, issued on June 22, 2022.
- A residence permit (Hukma) for a person named Ofer Barzel, issued on June 22, 2022.
- A residence permit (Hukma) for a person named Ofer Barzel, issued on June 22, 2022.
- A residence permit (Hukma) for a person named Ofer Barzel, issued on June 22, 2022.

Each document contains detailed personal information such as names, dates of birth, addresses, and identification numbers.
